Skills Leadership, Management, Teamwork, Problem Solving & Analytical Assessment, Teaching, Safety

Professional Experience

Leadership & Management

Naval Officer, General Manager

- Currently assigned as Deputy Commander of 500-sailor Reserve organization; responsible for readiness, training, and integration of ten Reserve units into four companies of active duty construction battalion
- Held operational control of 70 sailors providing maritime expeditionary security of two Iraqi oil platforms in challenging military, political, and environmental conditions
- Led combined U.S.–Republic of Korea team in drafting Navy’s supporting plan for the Defense of Korea, developing course of action, briefing and gaining approval from the Fleet Admiral
- General Manager of video on demand website backed by technology start-up, managing diverse team for all content acquisition, customer acquisition, ad sales, and strategic partnerships
- Founder of UConn MBA networking series; Co-founder and co-president of UConn MBA Operations Club

Operations

Joint Military Operations, Sourcing, Supply Chain Management

- Led sourcing operational intelligence project for GE Transportation during summer MBA internship as a research analyst at UConn/GE edgelab facility
- Planned, prioritized, and deconflicted complex maritime security operations in the North Arabian Gulf, integrating Navy expeditionary security with joint, coalition, and Iraqi Naval and Marine forces
- Extensive military operations and planning experience, with exercise and real world experience in maritime, air, and joint planning and operations; highly qualified and recognized expert in joint air operations
- Member of APICS The Association for Operations Management, pursuing Certified in Production and Inventory Management (CPIM) and Certified Supply Chain Professional (CSCP)

Engineering

Systems Engineer, Nuclear Engineer

- Nuclear trained surface warfare officer, completed Navy’s nuclear power training pipeline, qualified as propulsion plant watch officer on Nimitz-class carrier, and took reactor mechanical division through around-the-world deployment, homeport shift, and major shipyard availability

Additional Skills

- Proficiencies: MS PowerPoint, MS Excel (Data Analysis and Solver), MS Access, Arena Output Analyzer, HTML
