EDUCATION

UNIVERSITY OF CONNECTICUT SCHOOL OF BUSINESS

Storrs, CT

Master's in Business Administration (MBA)

Expected May 2013

Intended Concentrations: Finance, Venture Consulting

Chartered Financial Analyst (CFA) level 1 Candidate – Dec 2011

Business Analyst (ACT Project)

Client: Hartford HealthCare Corporation

Recommend process improvements for client based on market research and analysis.

UNIVERSITY SCHOOL OF CHEMICAL TECHNOLOGY

Delhi, India

Bachelor of Technology in Chemical Engineering

May 2008

Achieved First Class Degree with Distinction (U.S. Equivalent GPA of 4.0/4.0)

EXPERIENCE

HINDUSTAN PETROLEUM CORPORATION LTD.

Mumbai, India

Project Manager

2008-2011

- Planned and managed resources for early completion of Green Fuels & Emission Control Project, a \$ 400 M project.
- Coordinated with technical experts from France and Germany to learn, establish and implement procedures.
- Led and trained a team of 50 - 60 skilled and unskilled staff from different departments for early completion of project, making HPCL's Mumbai Refinery the first PSU refinery in the country to produce and deliver Euro 4 compliant Gasoline.
- Planned project and production activities to achieve 100% service factor and reduce project time by about 25% for various activities.
- Coordinated & implemented advanced process control system based on statistical models.
- Effectively coordinated with all units in refinery to bring down flare losses, to improve environment and to increase profitability of refinery.
- Executed Acidizing, a special procedure using virtual supervision of licensors, which saved \$300,000 for the company. It was the first time this has been accomplished anywhere in the world.
- Implemented high standards of safe work practices to achieve zero man-hour loss.

BECHTEL INDIA

Gurgaon, India

Graduate Engineering Trainee

2008

- Received a full-time offer on the basis of successful performance as a summer intern.
- Applied Six Sigma Practices in order to improve the quality of deliverables for client: Shell.
- Was responsible for utilities section of SHELL MOTIVA refinery expansion project.
- Collaborated with various departments in U.S. and India as well as with client to resolve business problems and implement appropriate solutions.

Summer Intern

Summer 2007

- Selected as the only hire from University.
 - Worked on Shell Athabasca Oil Sand Expansion Project and applied knowledge gained from engineering classes.
 - Took initiative to learn and perform mock designing with data from Reliance Jamnagar Refinery Expansion Project.
-
